

Santander Student Online Self-Development Programme (Queen Mary University of London)

Santander Universities UK has joined forces with Sporting Edge – a high performance consultancy that blends powerful insights with proven psychology – to run a new and exciting learning experience for 19 students from Queen Mary University of London.

Gain access to 8 hours' worth of insightful material and be in with a chance of winning a £10,000 Santander Development Grant.

Aimed at: Undergraduates

May they live in: United Kingdom of Great Britain and Northern Ireland (Home students)

From the University: Queen Mary University of London

Requirements:

By applying to the programme through the Santander Scholarship Platform, students provide their consent for their personal data (name and email address) to be shared with Santander (including associated companies of Santander, where applicable) and its service providers. Students' personal data will be used for administrating the competition and delivery of the prize. Students will also receive an email from Sporting Edge which will include access to the online content.

Students should be aware that their personal data, when shared with Santander, will be processed in accordance with the Santander privacy policy

By applying to the programme through the Santander Scholarship Platform, students provide their consent to participating in the programme.

Description of the scholarship:

Santander Universities UK has joined forces with Sporting Edge – a high performance consultancy that blends powerful insights with proven psychology – to run a new and exciting learning experience for 19 students from Queen Mary University of London.

Participating students will complete an online course (consisting of 8 hours) which will focus on performance themes including Personal Drive, Learning Mindset, Confidence,

and many more. Once finishing each module, students will have the opportunity to consolidate their learning and complete an online quiz.

The 4 students with the highest scores across all modules, and from all participating universities, will consequently win a Santander Development grant of £10,000 each - this should support the respective recipients with their professional and/or personal development (for example, funding their tuition fees, paying for travel costs to interviews, supporting their start-ups, etc.).

Students will be able to complete the course from **Monday 11th January 2021 until Friday 19th February 2021**. Please note: the online material will be accessible to students until mid-March 2021 in case they want to review or revisit any of the information. However, students must complete all of the online tests before the 19th February in order to be able to win one of the four prizes.

The 4 winners will be informed on **Wednesday 24th February 2021** via an email from the Director of Santander Universities UK. Similarly, all students who complete the 8-hour content and quizzes will receive a digital certificate via email by the end of March.

By entering the programme, students will be in with a chance of winning a £10,000 Santander Development Grant.

4 grants will be awarded to winning students across all participating universities.
